C Registration Board Report
- 11:30 am **“Low Impact Development for Urban Stream Protection:
Regulatory, Monetary and Social Incentives” –**
Presenter: Ruth Wallace, Municipal Storm Water Program
Coordinator, Missouri Dept. of Natural Resources
*The presenter will outline the drivers behind changes to local development regulations
and the call for state-of-the-art urban storm water management. As part of the national
Clean Water Act requirements, over 150 communities in Missouri are now required to
incorporate land use planning and site design considerations into new and
redevelopment projects. The focus is water quality protection with community benefits.
Come learn more about Low Impact Development, Green Infrastructure and similar
tools for more livable communities.*
- 12:30 p.m. **AWARDS LUNCHEON**
